

Brian Karmo

Full Stack Engineer

 Email  (248) 212-8259  West Bloomfield, MI 48322  LinkedIn

Profile

Solution-focused **Full Stack Engineer** with **10+ years of experience** in developing scalable, high-performance web applications. Skilled in **Node.js**, **Python (FastAPI, Django)**, **JavaScript (React, Next.js, Vue)**, and **PHP (Laravel)**, with strong expertise in **API design**, **database architecture**, and **cloud deployment (AWS, Vercel)**. Proven ability to deliver secure, maintainable, and efficient solutions in agile environments.

WORK EXPERIENCE

Senior Full-Stack AI Engineer, *Big Pixel* 09/2025 – 12/2025 | Remote
Technologies: **Vue**, **React/Next.js**, **Node.js**, **PHP**, **Laravel**, **Docker**, **AWS**, **RESTful APIs**, **GitHub**

At Big Pixel, I contributed to building **AI-powered platforms** focused on scalability, performance, and clean architecture. My main projects included developing a high-performance **auction platform** and a **beach service management system**, ensuring reliability and smooth deployment pipelines.

- Developed and optimized **auction** and **beach service platforms**, enhancing scalability, performance, and security.
- Built and integrated **front-end and back-end features** using **Vue**, **React/Next.js**, **PHP**, and **Laravel**.
- Implemented **responsive, accessible UIs** and optimized performance for seamless user experience.
- Collaborated with design and AI teams to deliver **data-driven, client-focused web solutions**.
- Utilized **Docker** and **AWS** for containerized environments and automated deployments.

Full-Stack Software Engineer, *Upwork* 05/2022 – Present | Remote
Technologies: **React/Next.js**, **Node.js/Express.js**, **Python(FastAPI/Django)**, **PostgreSQL**, **MongoDB**, **Firebase**, **Stripe**, **TailwindCSS**, **Vercel**, **GitHub**

As a freelance engineer on Upwork, I delivered full-stack projects for clients across marketplaces, automation tools, and AI-integrated platforms. I specialized in **scalable backend systems**, **clean UI implementations**, and **optimized API communication**.

- Built and launched a **photographer marketplace** using **Firebase** and **Stripe**, and a **job platform** similar to Upwork.
- Developed full-stack apps using **Python (FastAPI/Django)** and **React**, improving API response efficiency by 40%.
- Translated **Figma** designs into responsive, reusable UI components using **Tailwind CSS**.
- Improved backend performance by **30%** and frontend load speed by **35%**.
- Reduced integration bugs by **20%** through consistent **GitHub-based** code reviews and CI/CD.

Software Engineer, *BKInc* 02/2020 – Present | West Bloomfield, MI
Technologies: **React**, **Vue**, **Node.js/Express.js**, **PostgreSQL**, **MongoDB**, **DynamoDB**, **AWS**

At BKInc, I developed **enterprise-grade software solutions** for analytics and healthcare startups. My role centered on **backend system design**, **data modeling**, and **API security**, while ensuring optimal collaboration between design and engineering teams.

- Built **real-time analytics dashboards** and **customer onboarding systems** using **Node.js/Express.js**.
- Designed scalable **API architectures** and managed **PostgreSQL/MongoDB** for secure data operations.
- Transformed **Figma** mockups into production-ready UIs with **React** and **Vue**, improving accessibility.
- Enhanced system reliability by **35%** and reduced backend bugs by **40%** through optimized logic.

At Digital Celerity, I worked on both **frontend and backend systems**, developing **scalable web applications** and maintaining **cloud-deployed infrastructures**. I contributed to high-impact products, including a **hospital information system** and an **electricity supply management platform**.

- Developed web applications using **React, Next.js, TypeScript**, and **Node.js/Express**.
- Built and integrated **RESTful** and **GraphQL APIs** using **Laravel** and **Node.js**, increasing data efficiency by 35%.
- Managed **PostgreSQL** and **MongoDB** databases, optimizing query performance and reducing latency by 40%.
- Deployed and maintained apps on **AWS** and **Vercel**, improving deployment stability and speed.
- Collaborated within agile teams to implement scalable, secure, and maintainable solutions.

EDUCATION

Bachelor's degree in Computer Technology/Computer Systems Technology, *Lansing Community College*

08/2014 – 04/2018 | Michigan, USA

TECHNICAL SKILLS

Frontend

HTML5, CSS, TailwindCSS, MUI, React, Next.js, Vue.js, React Native

Backend

Node.js, Express, Laravel, GraphQL, Python (FastAPI, Django)

Languages

JavaScript, TypeScript, PHP, Python

Databases

PostgreSQL, MongoDB, MySQL, GraphQL

DevOps & Cloud

AWS (EC2, Lambda), Vercel, CI/CD, Docker, GitHub/GitLab, Nginx

Services

Full Stack Web Development

API & Database Design

AI-Powered Application Integration

Cloud Deployment & Automation

Data Visualization & Real-Time Systems

Custom
